Enigmatic Aeneid L. A. Braun

The NEWEST book on rebus! Learn all of the details of Virgil's epic poem from the first century B.C.--the 'Aeneid'! It had been a very exciting epic tale about the Trojan War. Aeneas had been chosen by the Olympian god Zeus to leave Troy and voyage to Rome--to establish the predicted new world empire. Had Aeneas's descendants then moved on to Britain and become the bloodline for later Kings of England? 'The History of the Kings of Britain' ('Historia Regum Britanniae') had claimed that Aeneas had even been a great forefather of the legendary King Arthur. We take a look at all of the artwork surrounding these colorful legends in search of the number '26' and rebus (pictures representing words). We also look at the legend of the Knights Templar. The 'Aeneid' had been written over two thousand years ago about a war that had occurred over 3,200 years ago. This book is a stunning exploration of Leonardo Da Vinci's secret number '26' and rebus in relation to the 'Aeneid.' Most astoundingly, this booklet illustrates again how the hidden number '26' and rebus is deeply embedded in our most famous masterpieces! Read it today!
