Never before have two top artists created such a multimedia work to honour the unique and steadfast bond between mother and child. Vocalist Celine Dion and photographer Anne Geddes conceived Miracle as a way to express something deep within their own hearts, and now both the experience and the outcome will delight music and visual art fans throughout the world. Miracle features more than 100 stunning new Geddes images. Each frame reflects the beauty, grace, and magic of both the photographer and her subject. Babies enfolded in blooms, mothers embracing the life flowering within: Anne's artistic eye captures it all. The exquisite images are wedded with the lyrics to all-new songs by Dion, created and performed on the book-accompanying CD in Celine's unmistakable international superstar style. It's easy to hear how her clear and melodious voice has captivated millions throughout her career. A DVD rounds out this artistic package, exploring the genesis of the Miracle project and taking its audience behind the scenes to witness the making of this memorable production. Celine's title track music video highlights the DVD. As a complement to this many-faceted experience, Sony Music will release its stand-alone Dion CD concurrent with the book's debut. AMP is delighted to play a role in bringing this important collaboration to readers and listeners, providing a crossover experience rivalled by few others. Mothers, grown children, grandmothers, friends, and gift givers everywhere will want to join this celebration of wonder.
