Statism denotes any system of big government, a government that gains power at the expense of individual freedom, a government that uses its power to redistribute wealth and regulate the economy. Laissez-faire capitalism, by contrast, is the system of *limited* government, the system of economic and political freedom. It is a system that has created more wealth and lifted more people out of poverty than any other system.

Yet it is relentlessly demonized. We are told that the free market is impractical—prone to crises, depressions, and coercive monopolies. Michael Dahlen dispels these and many other myths. He shows that a laissez-faire capitalist system is not only practical; he shows that it is *moral*, as it is the only system that recognizes each individual's inalienable right to his own life.

A provocative weave of history, philosophy, and political economy, *Ending Big Government: The Essential Case for Capitalism and Freedom*, shows that capitalism is incontestably superior to statism.
