In this important resource, 30 real, winning scholarship essays are analyzed, revealing what makes them successful and how they fit the judges' criteria. Essays and interviews are the two components of scholarship competition that often determine the award's recipient, yet most books on scholarships simply provide a directory of awards. This book includes sample interview questions and answers, along with strategies to help students overcome nervousness and be more prepared. Roundtable panels of judges and applicants supply further inside information regarding the winning qualities sought after by award-giving organizations. Advice for finding scholarships—using books, the Internet, personal connections, and sources in the community—is covered. These tips are especially valuable in an era where private education tops more than \$100,000, and most of the 15 million college students in the U.S. are in need of financial help.
