Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series Mark G. Davies, Alan B. Lumsden

Venous Thromboembolic Disease, the second volume in the Contemporary Endovascular Management series, continues the current, succinct review of the rapidly evolving field of venous disease presented in *Chronic Venous Insufficiency* (Volume 1). In recognition of the significant effects of venous disease on patients and the quickly changing modes of therapy in the field, this volume further fulfills the need for a comprehensive assessment of the treatment paradigms and innovative techniques now available. Volume 2 examines deep venous thrombosis, pulmonary embolism, thoracic outlet syndrome, and central venous disease from initial presentation through imaging and diagnosis to general and advanced therapies. As leaders in their field, the authors of *Venous Thromboembolic Disease* focus their contributions on current and relevant research and facts, specifically aiming to close knowledge gaps as well as to provide essential information for the practicing physician, the trainee, and the midlevel provider.

Series Description:

The Contemporary Endovascular Management series is designed to be a focused, relevant, and timely review of the modern aspects of imaging and intervention in specific vascular beds. Each volume in the series addresses one vascular bed and equips readers with the current information necessary for vascular practice using a clear and easy-to-access format.

Table of Contents:

Part 1: Venous Thromboembolic Disease

Overview of Part 1

1. Overview of Therapy for Venous Thromboembolic Disease; Eduardo Ramacciotti and Thomas W. Wakefield
2. Deep Venous Thrombosis and Pulmonary Embolism Pathophysiology; Peter K. Henke
3. Deep Venous Thrombosis: Prevention and Treatment; Mark G. Davies
4. Diagnostic Approach to Venous Thromboembolism; L. Bernardo Menajovsky, Patricia Hightower Lambden, and Ruth L. Bush
5. Treatment of Acute Deep Venous Thrombosis: What's New in the ACCP Guidelines?; Anthony J. Comerota
6. Anticoagulation Therapy; Ruth L. Bush, Brandi Huf, and CleAnn Toner
7. Pharmacological Thrombolysis: Indications, Techniques, and Outcomes; Mark G. Davies
8. Pharmacomechanical Thrombolysis for Acute Deep Venous Thrombosis: Indications, Techniques, and Clinical Data; Elina Quiroga and Mark H. Meissner
9. Endovascular Intervention for Lower Extremity Deep Venous Thrombosis: Techniques, Devices, and Outcomes; Erin H. Murphy and Frank R. Arko
10. Surgical Thrombectomy: Indications, Techniques, and Outcomes; Bo Eklof
11. IVC Filters: Indications, Techniques, and Outcomes; Joseph P. Hart and Claudio J. Schonholz
12. Percutaneous Pulmonary Embolectomy: Indications, Techniques, and Outcomes; Saher Sabri, Wael E. A. Saad, and Alan H. Matsumoto

Part 2: Thoracic Outlet Syndrome

Overview of Part 2

- 13. Primary Axillosubclavian Venous Thrombosis: Observational Care; Kaj H. Johansen
- 14. Axillary-Subclavian Venous Effort Thrombosis: Surgical Care; Valerie B. Emery and Robert W. Thompson

Part 3: Central Venous Disease

Overview of Part 3

- 15. Iliofemoral Deep Venous Thrombosis; Mark G. Davies
- 16. Management of Central Venous Stenosis; Michael J. Reardon and Mark G. Davies
- 17. Mesenteric Venous Thrombosis; Hosam F. El Sayed

Part 4: Practice Management

Overview of Part 4

- 18. Current Venous Coding and Billing; Gary Burns

From reader reviews:

Jerry Linton:

Book is to be different for every single grade. Book for children right up until adult are different content. As we know that book is very important usually. The book Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series ended up being making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The reserve Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series is not only giving you a lot more new information but also to get your friend when you really feel bored. You can spend your current spend time to read your reserve. Try to make relationship with all the book Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series. You never really feel lose out for everything if you read some books.

John Davis:

Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series can be one of your beginner books that are good idea. Many of us recommend that straight away because this e-book has good vocabulary that may increase your knowledge in language, easy to understand, bit entertaining however delivering the information. The article writer giving his/her effort to put every word into enjoyment arrangement in writing Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series however doesn't forget the main point, giving the reader the hottest and based confirm resource information that maybe you can be one of it. This great information can easily drawn you into new stage of crucial thinking.

Tammy Paradis:

Beside this Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series in your phone, it may give you a way to get nearer to the new knowledge or facts. The information and the knowledge you will got here is fresh from oven so don't end up being worry if you feel like an outdated people live in narrow small town. It is good thing to have Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series because this book offers to your account readable information. Do you oftentimes have book but you seldom get what it's interesting features of. Oh come on, that won't happen if you have this in the hand. The Enjoyable option here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss the item? Find this book and also read it from currently!

Joseph Felder:

As a scholar exactly feel bored to be able to reading. If their teacher inquired them to go to the library in order to make summary for some reserve, they are complained. Just little students that has reading's heart or real their hobby. They just do what the trainer want, like asked to go to the library. They go to at this time

there but nothing reading seriously. Any students feel that studying is not important, boring as well as can't see colorful pics on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Venous Thromboembolic Disease: Volume 2 of Contemporary Endovascular Management Series can make you sense more interested to read.
