The way we once learned history is now history.

Developed for students and instructors of the twenty-first century, *Becoming America* excites learners by connecting history to their experience of contemporary life. You can't travel back in time, but you can be transported, and *Becoming America* does so by *expanding the traditional core of the U.S survey to include the most contemporary scholarship on cultural, technological, and environmental transformations*. At the same time, the program transforms the student learning experience through innovative technology that is at the forefront of the digital revolution. As a result, the *Becoming America* program makes it easier for students to grasp both the distinctiveness and the familiarity of bygone eras, and to think in a historically focused way about the urgent questions of our times.
