The Kybalion - Hermetic Philosophy - Revised and Updated Edition Three Initiates

An occult classic Since its first publication in 1908, The Kybalion, Hermetic Philosophy by Three Initiates, has been in constant demand by students and investigators of the Secret Doctrines. It is a modern addition to the body of work devoted to Hermes Trismegistus, an icon of ancient teachings that reveal the path to self transformation. In this revised edition, we have corrected many editorial issues inherent within the original text, creating a clearer presentation of the book's message: The Seven Hermetic Principles, or axioms: • Principle of Mentalism • Principle of Correspondence • Principle of Vibration • Principle of Polarity • Principle of Rhythm • Principle of Cause and Effect • Principle of Gender These principles complement other Hermetic teachings and provide a foundation for your own spiritual awakening. As the book states, "The lips of wisdom are closed, except to the ears of understanding".
