Final Protocol J. C. Daniels

Tip #1: Don't get on her bad side. Tip #2: There's no good side.

Her name is Silence. If she was ever known by any other name, she doesn't remember.

She is a killer. If she was ever anything else, she doesn't remember.

She has an owner. If she was ever free...well, that she *does* remember. She was free and then somebody gave her to a madman to pay a debt that wasn't hers. She's his toy, his pet...and his trained killer. She kills at his whim or she dies.

She has a target. Her so-called *owner*...the man who makes her life a living hell. If she could kill anybody in the universe, it would be him. But he holds her life in his hands.

And she has a wish—to find a man she barely remembers. A man she knows she once loved. The man who betrayed her and stole away her freedom.

With one final target between her and the tantalizing promise of freedom, she moves in for the kill. There's one problem. There's something strangely familiar about her mark. Something that echoes in the void where love used to live.

Warning: One woman with a mission, one evil bastard who lies as often as he breathes, and a man who'll stop at nothing to find what he lost. Be warned...some questionable consent lies within.
