Every couple goes through a honeymoon period where they just can't seem to take their hands off each other. But as other aspects of the relationship grow more important, couples begin to realize changes in their sexual appetites. When one of you suddenly wants to make love less than the other, this leads to bitterness and disillusionment.

A waning libido is a common problem among couples who have been sleeping with each other for years and years. Contrary to what most might think, it's not just because you no longer find your partner attractive. Often, it's because you no longer find yourself attractive. When you look into the mirror, cringe, and decide that even you wouldn't sleep with you, this destroys your self-esteem. And in order to feel aroused, you need to feel that you are desired and that you're worthy of being wanted. Through this book, you'll find tips on how to be sexy in the bedroom. You'll learn that feeling sexy and having great sex is not about defying the sands of time. It's about getting the years to work for you instead of against you.

Sex and stagnancy don't mix. Couples who make a continuous effort to re-explore each other's bodies and find new ways to please each other are bound to last longer than those who don't. In this book, you'll find 50 of the best sex positions ranging from positions that can give her multiple orgasms to positions that can make him feel like the ultimate alpha male between the sheets.
