Obstetrics and Gynaecology

Lawrence Impey, Tim Child

Obstetrics and Gynaecology Lawrence Impey, Tim Child

Obstetrics and Gynaecology has established itself as a key textbook and a classic favourite for medical students. The opening sections of this new edition incorporate the relevant basic science, history and examination, investigations and diagnosis, as well as common diseases, abnormalities, and complications in gynaecology and obstetrics respectively. These are supported by two unique separate sections on gynaecology and obstetrics management, which are tailored to help students revise for exams, especially OSCEs. The overall emphasis on patient diagnosis and management means that both medical students and postgraduate candidates have found this book invaluable. This third edition has been completely updated, with more helpful features, including: * Two new appendices on Common Drugs and Normal Maternal Ranges in Pregnancy * Extra 'at a Glance' boxes for a quick chapter summary * Key point summary boxes and new and updated references provided throughout * New and improved Further Reading sections in every chapter The third edition is full colour, highly illustrated, and includes new figures and new artwork in many chapters, and sees Tim Child, a colleague of Lawrence Impey's from the John Radcliffe, join the author team. All in all, Obstetrics and Gynaecology is ideal as a core textbook and to revise from prior to the exams.

From reader reviews:

Mary Davis:

This Obstetrics and Gynaecology book is absolutely not ordinary book, you have after that it the world is in your hands. The benefit you will get by reading this book is usually information inside this reserve incredible fresh, you will get information which is getting deeper a person read a lot of information you will get. That Obstetrics and Gynaecology without we realize teach the one who reading through it become critical in thinking and analyzing. Don't possibly be worry Obstetrics and Gynaecology can bring once you are and not make your handbag space or bookshelves' become full because you can have it in the lovely laptop even phone. This Obstetrics and Gynaecology having great arrangement in word and also layout, so you will not truly feel uninterested in reading.

Jacqueline Stalling:

Why? Because this Obstetrics and Gynaecology is an unordinary book that the inside of the book waiting for you to snap that but latter it will surprise you with the secret the item inside. Reading this book close to it was fantastic author who also write the book in such amazing way makes the content within easier to understand, entertaining method but still convey the meaning fully. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This excellent book will give you a lot of positive aspects than the other book get such as help improving your ability and your critical thinking method. So , still want to postpone having that book? If I have been you I will go to the reserve store hurriedly.

Roger Lee:

This Obstetrics and Gynaecology is great reserve for you because the content and that is full of information for you who else always deal with world and possess to make decision every minute. This book reveal it facts accurately using great manage word or we can say no rambling sentences within it. So if you are read that hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with splendid delivering sentences. Having Obstetrics and Gynaecology in your hand like finding the world in your arm, info in it is not ridiculous one particular. We can say that no reserve that offer you world with ten or fifteen tiny right but this reserve already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. stressful do you still doubt that will?

Ricardo Hempel:

A lot of guide has printed but it is different. You can get it by world wide web on social media. You can choose the most effective book for you, science, comic, novel, or whatever by searching from it. It is named of book Obstetrics and Gynaecology. You can include your knowledge by it. Without leaving behind the printed book, it could add your knowledge and make an individual happier to read. It is most essential that, you must aware about e-book. It can bring you from one destination for a other place.
